EndoRAAD Goes Live at New Bon Secours Hospital Limerick

Manitex is proud to announce that *EndoRAAD*, our complete Clinical Information System for endoscopy and ultrasound procedures, has gone live at the brand-new Bon Secours Hospital Limerick, Towlerton, Ballysimon, Limerick

This marks another important milestone for Manitex, as one of Ireland's leading private hospital groups has chosen to continue its use of EndoRAAD in its newest facility. The system supports the clinical workflow of doctors and staff in the Endoscopy Department while also providing a secure long-term electronic record of all patient and clinical information, including images and video sequences.

The rollout in Limerick also brings with it the latest version of EndoRAAD, delivering significant improvements in efficiency, workflow and reporting. Key new features include:

- Windows 10 & 11 support for procedure room and doctor's office PCs
- Cystoscopy Wizard for Urology and EBUS Wizard for Respiratory
- HD image capture from endoscopic cameras
- Enhanced screen layouts for improved workflow and user experience
- ICD-10 code display to support HIPE coding
- Increased security features for data protection
- Integration of the latest National QI Programme metrics
- Multi-hospital reporting and analytics capability
- A standard PLC report aligned to HSE Healthcare Pricing Office requirements

The decision by Bon Secours to extend EndoRAAD to its newest hospital demonstrates the continued trust placed in Manitex solutions to deliver safe, efficient and future-proofed clinical information systems. If you would like to learn more email us at marketing@manitex.com.
