Invitation to the 17th Irish Diver User Conference on the 10th April in Dun Laoghaire

ALERT – Slides now available on https://dbinform.com/presentations-from-diver-conference-2025/

Please see the invitation to the 17th Irish Diver User Conference on the 10th April in Dun Laoghaire on the following link – https://dbinform.com/dbi-diver-conference-2025-agenda/ , the full agenda is on this link

This is a free event open to any Diver customers or organisations would want to make better use of the data which is already being collected but not been exploited to its fullest. Diver efficiently and seamlessly turns raw data into actional information to support better decision making.

But simply put, the Diver community is about assisting our customers to make full use of all the information at their disposal. All types of users can navigate to and summarise the information to support their job function, without the need for specialist technical assistance.

The Boston based authors of the Diver tools are Dimensional Insight (DI) who were recently named the #1 Data & Analytics Platform in US Healthcare for 2025 by KLAS Research. This is the 11th Best in KLAS award won by DI, see attached link for more details
– https://www.dimins.com/press-releases/2025-2/11th-best-in-klas-award/ . KLAS Research is the premier healthcare IT insights company in the USA, talking with thousands of providers and payers about the software and services their organisations use.

There are a multitude of DI customer Hospitals in the USA and around the world who have chosen to use the Diver tools who are using one of the major US vendors for their primary Electronic Health Record (EHR) e.g. EPIC, Meditech, Cerner, etc., or like some of the Manitex customers in Ireland have a wide mixture of different systems for their information requirements and use Diver for integrated reporting and analytics.

Diver is used by over 40 Healthcare organisations across Ireland and widely by many customers outside of health.

As well as being a mature tool set with extensive functionality, Dimensional Insight are also continually upgrading and modernising Diver with the latest technologies, and consequently have already significant experience in deploying Predictive Analytics and Artificial Intelligence (AI).

The use of AI and Predictive Analytics will be covered in 2 sessions at the conference, which will also cover several case studies from customers and the latest features being added to the tool set, with speakers from Ireland, USA, UK and Netherlands.

If you like to register for the conference please contact Marketing@Manitex.ie or dlonsdale@dbinform.com
