Manitex launches new products at the Future Health Summit

Manitex will launch a range of new cloud-based products onto the Irish market at the Future Health Summit on the 29-30th May 2024 (**www.futurehealthsummit.com**).

The UK's leading patient feedback website and provider of hospital patient experience solutions, **with over 6 million patient reviews**. Come and talk to the iWGC team on the Manitex stand to learn about system-level approaches to patient experience in the public and private sectors and how this can benefit your patients, your staff and the organisation. (www.iwgc.org)

The Measure Factory for the Diver Gateway Platform from existing Manitex partner Dimensional Insight (DI). Diver customers in the US use one of the main **EHR systems (e.g. EPIC, Meditech, Cerner)**, which are now being implemented in Ireland. They chose Diver for very good reasons, including **1,500 predefined measures**, an end-to-end BI solution and excellent customer service. DI was recently awarded **Best in KLAS for Healthcare Data & Analytics** in the USA for the 10th time in 15 years, they came 2nd for the other 5 years.(www.dimins.com) (www.dimins.com/awards/best-in-klas/)

Harnessing the power of AI in healthcare. A cutting-edge technological ecosystem setting new standards for innovative **patient-centric care**. It includes Global HIS and EHR which provides a **full function electronic health record** covering all patient workflows. The solution scales from a single practice or hospital to a large regional health management organisation. Advanced EHR modules will **integrate to compliment the customers existing solutions**.
