

Top Doctors Group Shared AI Insights at HealthTech Ireland Symposium 2025

Manitex was delighted to co-sponsor the **HealthTech Ireland Symposium 2025**, which took place on **Wednesday, 22 October** at the Croke Park Conference Centre.

Manitex, now part of the Top Doctors Group, featured prominently in this year's programme, with Dr. Jordi Cusidó, Chief Innovation Officer at Top Doctors Group and Director of Top Health Tech, speaking on how the ethical and responsible use of artificial intelligence is already transforming European healthcare.

Dr. Cusidó brought over 15 years of experience bridging technology, medicine and data. With a PhD in Engineering and executive training from Stanford and IESE, he leads Top Doctors' R&D division specialising in digital health and AI. His work focuses on initiatives within the European Health Data Space (EHDS), advancing AI-driven analytics and patient-centric digital solutions that improve clinical outcomes across Europe.

"We are very pleased to be part of the Top Doctors Group who are now present in 9 countries and are active in 15 countries," said Steve Gillman, Country Manager of Manitex. "The Top Doctors innovative solutions will be extremely important as the digitalisation of healthcare picks up pace in Ireland over the next 5 to 10 years. Dr. Cusidó's leadership in AI and health data innovation reflects our own mission to deliver smarter, more connected and cost effective healthcare technology in Ireland."
