SELF-SERVICE REPORTING OFFERS THE ULTIMATE FLEXIBILITY FOR YOUR USERS From simple to sophisticated, The Diver Solution offers a broad selection of customizable report templates for all user capability levels. Over a dozen chart and plot styles can be incorporated into reports to deliver maximum visual impact. Filtering, sorting, grouping and forecasting functionality are all supported directly from the reporting interface.

REPORTING INTEGRATED WITH YOUR ENVIRONMENT The Diver Solution is tightly integrated with Microsoft Office applications and can export data in several different formats, including HTML, XML and Adobe PDF files. Based on security settings, external users can also access Diver reports.

Users can create a collection of reports arranged into categories called Areas and Topics, and have the ability to create downlinks to custom reports.

PRODUCT: PROREPORTER ProReporter is a self-service reporting application with a simple and flexible interface, requiring little or no training. ProReporter allows you to broaden your user base and extend controlled data access to your customers and suppliers. ProReporter is available as either a client/server configuration or can be seamlessly integrated into DI's portal interface, DivePort.
